GoldenHome Cabinetry Door Selection

## MODERN STYLE KITCHEN CABINETS

Established in 2018 and headquartered in Aurora, Ontario, Goldenhome Cabinetry Eastern Canada Inc. is committed to providing refined kitchen and bath cabinetry solutions across Canada.

Rooted in **European design principles** and **modern minimalism**, we create timeless cabinetry with a focus on form, function, and sustainable craftsmanship. Our solutions balance streamlined design with everyday practicality.

As one of the early adopters of **Ready-to-Assemble (RTA)** systems in the Greater Toronto Area, Goldenhome Eastern Canada has developed a structured, efficient product line that serves both **residential** and **multi-unit project** needs. Backed by a reliable global supply chain and a rigorous quality control system, we ensure consistent performance from warehouse to installation.

Goldenhome collaborates closely with developers, designers, builders, and showrooms — building long-term partnerships grounded in professionalism, reliability, and shared vision.

## OUR SERVICES

- We offer a **hybrid supply model** that combines the speed of in-stock RTA cabinetry with the design flexibility of local production.
- Key service pillars include:
  - **In-stock Cabinet Inventory** – 50+ SKUs readily available with 1–3 day shipping
  - **Locally Manufactured Doors & Finishes** – Including skin-feel PET, ultra-matte textures, woodgrains, and glass door options
  - **Custom Modifications** – Open shelves, slanted uppers, filler-less layouts, decorative hoods
  - **Visual + Spec Tools** – Quote sheets, elevation drawings, install references
  - **Sample & Sales Kits** – Color decks, case study books, portable showroom boxes
- Whether you're building at scale or customizing a single kitchen, our service adapts to your timeline, aesthetic, and space.

## THE SEMI-CUSTOM PHILOSOPHY

Our **Semi-Custom Cabinetry Program** is designed to bridge the gap between rigid RTA systems and high-cost full custom solutions. Rather than offering random modifications, we deliver **targeted optimization within a disciplined framework**. Each project allows for:

- **Precise dimensional refinements**
- **Tailored finish selections**
- **Flexible structure adaptations**

This ensures a tighter fit to diverse site conditions and greater alignment with design intent. It's clarity with creativity, and consistency with craftsmanship.

## OUR PRODUCTS

RTA is short for Ready-To-Assemble, it is a form of furniture also known as Knock Down or Flat Pack. All components of a certain item are packed in one package, and it has to be with assembly instructions.

SKU is short for Stock-Keeping-Unit, SKU is the basic unit of stock in warehouse, one SKU distinguishes each other with attributes of material, size, color and specifications. A cellphone, a bottle of water, a car; any merchandise can be described as an SKU.

All Goldenhome products in stock are in RTA package. One set of kitchen cabinets is made up with multiple single units, in the other way of speaking, SKUs.

- Our door series, they are arranged in order of price from low to high. The Classic is particleboard cored melamine doors. While **Delight** is MDF cored, with polymer coating. It could be pure color, or engineered wood grain look.

- In 2026, **both Grand and Luxury collections** have undergone a major aesthetic refresh. Grand now features a broader range of modern finishes, including newly integrated AGT and EGGER panels, offering more trendy and textured options. Meanwhile, Luxury introduces the elegant **Slim Shaker** door style, expanding design flexibility with refined profiles and a wider palette, which are perfect for elevated, contemporary interiors.

## GRAND SERIES

Kitchens are considered the heartbeat of any home and become the center of attraction.

This is the place where we cook, prepare, socialize, and even entertain guests. So, making it look incredibly stylish is what every homeowner dream of.

Our glossy and super matte style kitchen cabinets will suit everyone's needs, where glossy gives you a classic reflection and makes your smaller kitchen look bigger, whereas super matte style gives you a sophisticated appeal and is easier to maintain as compared to glossy cabinets.
